WILLIAM LESLIE.

MAUA BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a m. till 4 p.m.

P.P. MAUA & Co.
WILLIAM LESLIE.

Royal Insurance Company.

FIRE AND LIFE.

CAPITAL TWO MILLIONS STERLING.

This important company, in many respects the greatest of its kind in the present age, has appointed an agency in this city. The head-offices are in London and Liverpool with branches in Dublin, Edinburgh, Glasgow, Manchester, Bristol, Birmingham, Sheffield, Leeds, Newcastle, Southampton, Montreal, Toronto and other cities.

The ROYAL is remarkable; for the promptitude and liberality of its settlements: for the largest life bonuses (£2 per cent per annum) ever continuously declared during 15 years by any Co.; for the enormous extent of its transactions, shewing £'00.000 in new life assurances for 1862, and a Fire revenue of £300,000 per annum; for its security, which has given rise to the proverb "as safe as the Royal;" for the accumulated funds in hand, over one million sterling; for its annual income, over half-a-million sterling, and for the correct calculation of its mortality tables. Hence the English press of all countries, including over 80 leading papers, speaks in the highest terms of this company.

The report for 1863 shews that "all the property of the Co. amounting to £846,070 is real and substantial property;" the amount now exceeds one million sterling. The increase, during 14 years, on Fire business was 900 per cent, and on Life 1350 per cent.

MESSRS. H. A. GREEN AND Co. are authorised to issue policies for Fire and Life to a very large amount, at moderate premiums, the Co. being anxious to extend its foreign business, which already shews an annual revenue of £200,000. Life claims can be settled without reference to England. For further particulars please apply to

Rams—Rams—Rams.

The undersigned, in calling attention to his large and superior stock of Rams and Breeding Sheep, begs to inform his Friends in the Camp that he has on hands a splendid collection of animals, from Three Hundred to Five Thousand Dollars, more, and is confident that each in its class will compete with anything in the province.

In the "Rambouillet type" will be found some fine specimens of the pure blood, besides crossings from the "Merino," possessing the size, shape, and length of staple for which this class is so much admired.

In the "Negrettes" he has also some beautiful animals of pure blood, as likewise the "Negrette" drawn from the "fine Merino," a "Cria" remarkable for compact shape and close heavy wool:

In addition to the above he wishes to draw especial attention to his celebrated Argentine breed, between the "Rambouillet" and "Negrette Ewes," and which, after seven years' experience, he can fully recommend as combining size and shape with length and weight of wool—qualities so anxiously looked for by all experienced sheepfarmers, and which have given so much satisfaction to those who have already purchased of this class. In buying the above in half three-quarter, and pure blood, already acclimatized, there is an immense advantage, as Rams reared in this country are not so delicate and withstand the want better than imported animals, besides being sold much cheaper, and only requiring ordinary care.

He can likewise supply the above classes in Ewes, either picked or by the hundred, and wishes to remark that all have been in prime condition throughout the past summer.

BENSON'S WATCHES AND CLOCKS.

Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfectness or carefully adjusted mechanism."—Times, June 11 1862.

"A triumph of ingenuity."—Telegraph March 11 1862.

"A more splendid and exquisite finished piece of mechanism we have never seen."—Standard, June 17 1862.

"Some of them are of great beauty and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—Illustrated London News, November 8, 1862.

CHILIAN COLONY IN PATAGONIA.

Whatever vanity Argentines may have in supposing their Republic to extend from Bolivia to Cape Horn, it is certain that President Mitre's authority does not reach those limits, and sooner or later Buenos Ayres will have the mortification to find its geographies all at fault. About a year ago some insipid writer in the "Nacional" gave the alarm that England was going to annex Cape Horn, and that a colony of jumpers from Wales meditated the conquest of Patagonia. Then came the French bugbear, his Majesty, Orelie Antoine I. (formerly M. Tonnens, lawyer of Perigueux), who had been crowned King of the Araucanians and was supposed to entertain ambitious views touching Patagonia. Strange, that no one foresaw the real difficulty, which must arise with Chile, since that country naturally has pretensions to the desert territory on her frontier. But, what is more amusing, the Chilians far from regarding Patagonia as disputed soil, proceed to dispose of a large tract, with its mineral and other natural wealth, as if the Argentine Republic had not the shadow of a claim.

A gentleman named Orestes Tornero has solicited from the Chilian Legislature a concession for all the territory lying between the 49th degree of South latitude and the Straits of Magellan from the Atlantic to the Pacific. The Gazetteer before us represents this slice of land as 300 miles long (from Cape Virgin in the Atlantic, to Cape Desirée in the Pacific), by 250 wide, which would give a superficial extent of 75,000 square miles, almost equal to the whole island of Great Britain, (83,000 square miles). If Mr. Tornero succeed in becoming owner of so extensive a property, we should suggest to Sir Bernard Burke to enrol him in the next edition of "Landed Gentry." As yet the Chambers have not decided on so modest a petition but it is highly probable that they will grant it, as we invariably find people generous in making donations of other men's property. The alleged object is colonization, and the concessionaire undertakes within ten years to plant there 10,000 emigrants: the precept of the domestic housewife about "catching your hare before cooking it" may be applicable, as Mr. Tornero's difficulties only begin *after* getting the concession, and when he pays a visit to his new farm he incurs the risk of an ejectment on the title, from the original tenants in possession.

Seriously, we do not understand his proposed plan: if even his colonists succeed in holding their ground against the Indians, how will Sor. Tornero go to war with the Argentine Republic, or will Chile defend his claim by force of arms? If Sor. Orestes had, like his Grecian namesake, killed his mother and condemned himself, in remorse, to perpetual banishment among the Magellan icebergs, he certainly would not require 8,500 square leagues of camp for his kitchen-garden. If Chile thought Patagonia worth conquest, why give it away in fee to one individual? The chances are, that Sor. Orestes hopes to realize a grand speculation, by turning to advantage a country abandoned both by Chile and Buenos Ayres, and counts perhaps on finding a Pylades to aid him in the person of King Orelie, who has returned to claim his Araucanian crown.

Nevertheless we cannot deny the advantages likely to result from the success of so extraordinary a scheme, and as the Argentine Government makes no use nor entertains any practical intentions about the territory in question, we should regret if a "dog-in-the-manger" policy prevented our Cabinet from waiving any theoretical or imaginary rights it may have in the matter. It was, indeed, ungracious of D. Orestes Tornero not to apply first to President Mitre, but as this republic has more land than we know what to do with, and as it is not worth while to get into a quarrel with Chile about territory in the possession of neither and at present wholly valueless, there may be no difficulty in the Argentine Cabinet imitating Chilian generosity by making Mr. Tornero a present of the strip of land along the Magellan straits.

Our friend of the 'Nacional' may object, on the very probable grounds that in the year 2864 Patagonia will be a powerful and prosperous state, and that we should then find out the mistake of parting with it. Even allowing this argument its full weight, we beg to remind him that Tierra del Fuego (Argentine territory) will be still more important, and even if we rule our policy by so distant a future, there is no security that Patagonia will always remain an appendage to Buenos Ayres. It is wiser to legislate for the present century than for 1,000 years hence, and unless some project like Mr. Orestes Tornero's be carried out, Patagonia must be the same for several ages that it has been since 1535.

The petition is conceived in the following terms:

"Orestes Tornero, a resident of Valparaiso, calls the attention of your honorable Chambers to the fact that Patagonia is at present put to no manner of use, although enjoying a climate similar to that of the United States, and possessing a fertile soil highly suitable for colonization, while its maritime position fits it for a large trade in timber, minerals, skins, &c., and with steam navigation the straits of Magellan might be used by ocean traders instead of the perilous voyage doubling Cape Horn. I therefore presume to lay before Congress the subjoined petition:—

1st. A concession of all the lands of Southern Patagonia, between the 49th degree and the Straits of Magellan, extending from one ocean to the other, and including the property of whatever mines may therein exist or be discovered.

2nd. An exemption, for a period of 50 years, from all taxes, as well in favor of the concessionaire or Co., as of all immigrants who may there establish themselves. The concessionaire, on his part, binds himself to the following:

1st. To establish colonies on the territory ceded, the minimum number of settlers at the end of 10 years to amount to 10,000 persons.

2nd. To establish two, four, or more steam tugs, as may be required, with guarantee from the Government, in this particular, of six per cent per annum on the capital so invested, such capital never to exceed $200,000 silver.

3rd. The concessionaire (or Co.) will present, each year, to Government a return of the state, progress, and increase of population, of the colonies.

4th. If at the expiration of ten years, the concessionaire fail to fulfil his obligation No. 1. the right of all lands ceded shall return to the state, excepting those actually in use by the concessionaire or the colonists.

5th. After 50 years the Co. and colonists shall begin to pay taxes the same as the rest of the Republic.

6th. The towns which may be formed shall be governed by Chilian authorities and shall be built in such sites as the Co. and Government shall mutually arrange, the latter having option to erect public buildings where it may think fit.

7th. A company for this concession shall be formed in two years, passing which term without so doing the concession shall be void.

EDITOR'S TABLE.

Commander Mitre, we hear, has been out in Merlo, superintending the arrangements for the rifled cannon practice. There is a rumor current that a camp will be formed there for drilling purposes.

Government has received advices of a contemplated invasion of Indians on a great scale; Calfucura, it is said, has joined with the Ranqueles, and thousands of savages are leagued together to invade our southern frontier. The cause of this new invasion is that the savages have heard of Gen. Paunero's project to extend the frontier to the Colorado. Some of the Indians have got a copy of the 'Tribuna' or 'Nacion,' we suppose, with the very project in question, and as they are alarmed lest the splendid camps which they at present occupy will be taken from them, they have determined to declare war. One of our colleagues affirms that the Indians have made contracts with some Chilian estancieros for the sale of all the cattle which they rob in Argentine territory. This should be looked to as in English law the receiver is as bad as the thief.

In the partido Fortin de Areco recruiting we hear is the order of the day. The judge is unusually strict about 'passes,' and numbers of fellows, who were as usual galloping through the partido without passes or papeletas of any description, have been caught by the alcalde. A small force of eighty men is to be levied in the Fortin by order of Government. No one knows where the men ere going to; some think to the frontier, and others say for Martin Garcia. As the shearing season is near at hand, this is causing the greatest annoyance.

A subscriber from Magdalena came to visit us yesterday. He states that down in his neighborhood the farmers never had a better year; the flocks, as a general rule, have given fifty per cent increase, and in many cases even exceeded that: the camps are in the most beautiful condition.

The thistles are frightful this year, the hard thistle in the south and the soft thistle in the north. The farmers are busy cutting roads in all directions; many have machines which are found to be extremely serviceable.

Last week's 'Mosquito' has a most amusing critique on the La Plata ball. We do not know who are the parties alluded to, or who the English lord is?

The Fairy arrived yesterday from Montevideo, but brought no news of importance. She now sails under the Portuguese flag, and will call at all the Uruguay ports.

The Kepler has brought out forty-five rifled cannons for Paraguay and a quantity of gunpowder to order. Her list of passengers will be found in another column.

His Excellency President Mitre gave a white bait dinner yesterday to the Members of Congress. This, we suppose, indicates that the Parliamentary labors of the guests will soon draw to a close.

To-morrow there will be a great *fete* at the Government House on the occasion of President Mitre receiving H. E. Sr. Creus, the new Spanish Minister. The band will play on the square.

Minister Gonzales has ordered that the Treasury accounts henceforward be made up at the end of each month, for the purpose of publication in the newspapers. We regard this as a move in the right direction, as the non-publication of these accounts for the last twelve months caused a very great feeling of distrust. The payments in the Treasury Department are now on a very large scale. On last Saturday the quarterly interest on the bonds of the consolidated debt was paid, as also the instalments due on the Brazilian debt. On the 8th inst. the quarterly amortization of the bonds will take place. The Government advertises for bids. We suppose they will be amortized at 44 or 45.

Messrs. Calzadilla & Beare, who have obtained the concession from the Sante Fé Government for lighting Rosario with gas, have applied to Congress for permission to introduce, free of duty all articles necessary for the carrying out of the project. We have no doubt it will be at once passed.

The people in the neighborhood of the parish of San Telmo were thrown into the greatest alarm the other day by part of the Church falling in. It is generally believed that the church was struck by lightning.

Congress has approved of the project for river steam navigation, limiting the term of the concession to three years. As the Minister has already concluded a contract with Messrs. Harrison & Mansilla previously, we have no doubt that Capt. Harrison will at last be able to carry out his scheme.

Two more Brazilian men-of-war entered port yesterday. The Brazilians have now more war vessels in the River Plate than the English in the Mediterranean.

The Opera Company, we hear, is not going to leave Buenos Ayres, at least permanently. We are happy to say that we believe a new contract has been entered into, and at the close of this temporada the Prima Donnas will rest for awhile, to commence afresh after a short vacation. Don Giovanni, we hear, will be the first opera given in the next temporada.

The new Market at the Lorea is doing remarkably well and seems to have caused quite a stir in the neighborhood. The shop rents have gone up, and we notice that even the auctioneers have opened "hard by."

New English shops are starting up in every street in town: Mr. Hill's haberdashery in calle Florida is a veritable *bijou*, and the politeness of the owner and nicety of arrangement almost oblige visitors to make purchases. Messrs. Murray & Gibson announce an English tailoring establishment, which is sure to do a first-class business from the name of the firm. Mr. Hastings has returned to the grocery trade and opened an establishment in calle Reconquista. We are equally glad to notice a new English agency-office belonging to Mr. Kemsly in calle Reconquista.

The local papers mention an offer from a Polish Legion, which fought in the late war, to enter the service of the Argentine Republic: the legion is 800 strong, and Sr. Ascasubi (Aniceto el gallo) is in treaty with the officers.

Our estanciero friends will be interested by an advertisement of Mr. Prangue, offering 10,000 sheep for sale: it is an excellent chance for parties about to settle in Entre Rios.

We have received a pamphlet from Madrid, in reply to Sor. Alberdi's Treatise on Buenos Ayrean Diplomacy. It is apparently written by some friend of Sor. Balcarce, and we will review it another day.

The eight Sisters of Charity recently arrived will proceed to take charge of the French Female College at Paraná.

In our remarks, in yesterday's paper, respecting the enormous quantity of railway iron at present discharging, and when it will be paid for, we, of course, made no reference to Messrs. Wheelwright, Peto, Betts, or other contractors, but to the country at large, as it is natural to suppose that in the end the country must pay for every ton of railway iron imported.

AN APPEAL TO THE BOARD OF HEALTH.

Small-pox is going its rounds in some parts of the camp this year with unparallelled rapidity. It must be well known to the board that its victims in the camp are more numerous than those in the city. This is easily accounted for: vaccination is seldom neglected in the city, whereas in the country it is only attended to by those in easy circumstances. Besides this, which in itself is quite enough to account for the enormous difference in deaths from smallpox between the city and the country, medical advice is seldom sought in this complaint by any but the upper ten thousand; patients are, if at all attended medically, put into the hands of old women, who unconsciously assist in depopulating the Argentine Republic.

Those doctors who inoculate, generally charge from twenty to fifty dollars, I say those *who* inoculate, because some totally decline the operation. There are some mothers so very poor that to spend either twenty or fifty dollars for mere protection against a disease, which may or may not attack their children, is, in their opinion, money foolishly spent; add to this, the many obstacles this class have in going to the towns to get their children inoculated. Although poor, they will not make their appearance in a village without showy clothes on themselves and children; the want of a horse, the want of a town recado (two items rapidly becoming scarce in the hands of the poor), the want of the fifty dollars, and the want of suitable clothes, are only a few of the many items which cause the inoculation of children to be put off from day to day, until the fatal disease enters the house and carries away at least twenty-five per cent. of those whom it attacks. If an estimate of children alone were taken, without including adults, I am certain that one-half the cases of smallpox are fatal; somehow or other native mothers of the poor class are unfortunate in losing many of their children either from smallpox or 'mal de los siete de dias.'

The Board of Health could, in a great measure, prevent the mortality from smallpox, by sending periodically to every partido some of the 'vaccine virus;' this is absolutely necessary, because even those doctors who habitually vaccinate frequently run out of 'vaccine,' for the simple reason that, in the country, few return to the doctor to see if the pock has taken or not, consequently he cannot vaccinate from arm to arm, and it depends solely on his own interest or philanthropy to keep a constant supply, which he can only do by applying for it at the vaccinating offices in the city on stated days. This is troublesome and inconvenient to all, and difficult, if not impossible, to those not having friends in the city, through whom they would make this periodical application. To obviate this, the board should keep the doctors constantly supplied, by transmitting 'vaccine' or 'pock' to the Municipal Corporation of every partido, or to the doctors themselves. It would also be an act of humanity, on the part of the board, to send a circular letter to the different municipalities, requesting them to use all their influence with the doctors, and tend to bring that influence to bear on the encouraging and affording every possible facility not only to vaccinate persons who request it, but also to take an occasional tour through the partidos with this object.

If a philanthropist, acquainted with any of the members of the Board, should happen to read these lines he would do a worthy act by calling their attention to the subject; perhaps some of the editors of the native journals would be gallant enough to assist in saving, if not the life, at least the beauty of many a charming Porteña.

DICK.

THE FESTIVAL OF MERLO.

On Sunday the little village of Merlo was all astir. By the first train a large number of city folks arrived to assist at the function, and all the neighbors, native and foreign, flocked into town on foot, horseback, or in carriages. The day was very fine, and the dignitaries of the place, both lay and clerical, bustled about until the church bell announced the commencement of divine service. The new church was crowded, the Mass was impressively sung, and the choir from the capital lent valuable assistance. The Rev. Dr. Palacios delivered an eloquent sermon on the feast of the day (Rosary Sunday) and in allusion to the Blessed Virgin.

When the sacred ceremonies were over, the worthy Justice of Peace, D. Juan Dillon invited the congregation to a sumptuous dejeneur which he had laid out at the school house, and in flowing bumpers of champagne the various guests, Argentine, Irish, American, French, Spanish, &c., toasted the welfare of the village and its protectors spiritual and temporal. In the afternoon the respected curate Rev. P. J. Dillon (formerly of Dublin) gave a dinner at his residence which was largely attended. Before night all returned home, the greatest harmony and order having prevailed on the happy occasion.

We are glad to learn that the Justice of Peace, Mr. Dillon, has generously offered gratis any land that the Foreign Amateur Racing Society may choose to form into a race-course. Mr. Dillon is evidently of the "right old stock," and a good sample of a Hiberno-Argentine.

GREAT EASTERN RAILWAY.

The project for contract of the Eastern Railway was sanctioned by Congress, with the following modifications:—

Art. 4. The road shall be divided into two sections: the first, from Concordia to Monte Caseros; and the second, from there to Mercedes. The construction of the first section may commence immediately after the execution of the contract; but the second shall not be commenced until the first shall have given a nett product of 3½ per cent. on the capital employed.

In the fifth article, about the ownership of land, the following addition was made:—"Previous expropriation, if necessary, of private properties."

Art. 10. Omitted.

Art. 13. At least 18 miles of the first section shall be open to the public within twenty-five months from the date of contract, and the rest to be finished during the three following years; or in case of its not being ready, the guarantee shall be annulled, except the delay was caused by the act of God, or other uncontrollable circumstances.

Art. 26. Omitted.

Buenos Ayres, Sept. 27, 1864.

GREAT DAY FOR BUENOS AYRES.

LAUNCHING OF THE NEW STEAMER. LA ESTRELLA DEL NORTE.

Yesterday, at two o'clock, Mr. Marshall's shipyard in Barracas was crowded. Several distinguished gentlemen from Buenos Ayres, and all the leading personages of the neighbourhood, attended to witness the launching of the new river steamboat, La Estrella del Norte, which was on the stocks at Mr. Marshall's yard. The whole town of Barracas was decked out with flags. In the Riachuelo the little river schooners were in holiday attire; even in the inner roads some of the vessels hoisted their colors. Thanks to the Minister of War, a military band of music was in attendance, and played the most enlivening strains, whilst the people were waiting for the arrival of the "madrina."

Owing to the indisposition of Mrs. William Leslie, the lady who was to christen the young steamer, the launching was delayed half an hour beyond the time appointed. At 2:30 o'clock precisely, Mr. William Leslie, the manager of the Mauá Bank, in company with Mr. Henry Zimmerman, the manager of the Northern Railway, arrived, and then the signal to begin operations was given.

Miss Isabella Long came forward, and, having in her hand a beautiful blue flag with a lone star in white, in due form dashed a bottle of champagne on the bows of the stranger, and called her, amidst the shouts of the assembled crowd, *La Estrella del Norte!* The little steamer dashed into the water without the least contre-temps or accident, and the huzzas of the crowd on board and on shore echoed along either bank of the peaceful little Riachuelo. Majestically she rode in the stream, almost covered with Argentine and English flags. This part of the ceremony being over, Mr. Marshall invited his friends to the festive board. Mr. Gladstone, the able representative of Messrs. Peto & Betts, in Barracas, proposed, in a most complimentary speech, the health of Mr. John Marshall, which was duly responded to.

Mr. Lowry then rose and proposed the health of President Mitre, which was drunk with all the honors.

Mr. Henry Zimmerman said he had a toast to give, which he felt certain would be well received. We had all witnessed the launching of the Estrella del Norte, and felt gratified and proud that we could now build our own steamers here; but it was his duty to remind his friends present that there was one here who had always proved himself the friend to native industry, and who freely and liberally lent the money to realize every useful scheme which had for its object the development of the industrial resources of the country; he referred to Mr. William Leslie, the able and popular manager of the Mauá Bank. [Great cheering] He proposed, therefore, the health of Mr. William Leslie, and with it coupled "Success and prosperity to the Mauá Bank," an institution which has already done so much good for this country. [Drunk with three times three and tremendous applause.]

Mr. Leslie rose and said:—Gentlemen I feel honored at the complimentary remarks of my friend Mr. Zimmerman, and know not how to thank you for the warm manner in which you drank my health. I feel flattered beyond measure to find that in the humble discharge of my duties, as manager of the Mauá Bank, I have been so successful in helping the industry of the country, and thus carrying out the wishes of the Baron Mauá: Permit me, gentlemen, in conclusion, to propose the health of "Governor Saavedra," a man who, I am proud to say, has proved himself one of the best Governors this province ever had. I

give you, gentlemen, the health of his "Excellency, Don Mariano Saavedra, Governor of Buenos Ayres"—[great cheering, and drank with all the honors.]

Mr. Mulhall then proposed "La Estrella del Norte, and success to her"—[drank with cheers.]

Sr. Dn. Pepe Rebol [a native gentleman] proposed "Health and Prosperity to England," which he regarded as the greatest nation on the face of the globe [cheers.]

Mr. Lowry gave the next toast. He said that he had no doubt every one regarded the war going on in the States as most disastrous. Let us drink, then, friends, to the success of the peace negotiations which are at present going on. [Peace in the United States, with great cheers.]

The health of Messrs. Price and Davis, the captain and engineer of the new steamer was then drunk amidst the most vociferous applause, after which the party separated.

As we gave the dimensions of the new steamer the other day it is unnecessary now to repeat them: suffice it to say she is built to ply between the Tigre and San Nicolas, and will be fitted up for the accommodation of passengers in the most unequalled style. With such a popular master as Captain Price, and so experienced an engineer as Mr. Davis, we feel confident that she will have as many passengers and as much cargo as she will be able to carry.

Success to the 'Estrella del Norte.'

THE SPANISH MINISTER.

On Thursday [to-morrow] will take place the official reception of the Chevalier Creuz, Plenipotentiary of H.C. Majesty near the Argentine Government. It is rumored that his Excellency Javier de Lozada, Duke of San Fernando, and Spanish Consul in this city, has been named Spanish Charge d'Affaires in Guatemala. The Spanish Consul's flag was kept flying yesterday, it being the birth-day of the King-Consort of Spain.—'Nacional.'

CLOSING OF CONGRESS.

The 'Nacional' states that Thursday has been fixed for closing the National Chambers.

PROVINCIAL CHAMBERS.

The Deputies are sitting on the currency-redemption projects. On Monday night they failed to hatch the sale of 800 leagues of camp.

THE INDIANS AT JUNIN.

A paragraph of the 'Nacional' gravely informs us that the Indians have attacked Turin (the capital of Sardinia), but this is an evident misprint, and we read elsewhere, that General Emilio Mitre has set off for Junin, which town is besieged by the Indians, and the inhabitants in awful alarm. It appears they are "friendly" Indians and have carried off on immense amount of stock: they have such a strange way of shewing their friendship!

We regret that so many Irish estancieros have large properties in the district, and are likely to suffer. Verily, if Government continues supine, we shall shortly hear of Mercedes or Luxan being invaded by the savages.

MARITIME INTELLIGENCE.

On the 29th of May the crew of the British barque Amelia, lost during the storm of the 22d, were robbed by the pirates at Haimaro.

H.B.M.'s S. Grasshopper destroyed a fleet of pirates composed of forty junks.

On the 2d of June the Portuguese barque, Maria Pia, arrived at Macao from Peru, after a seventy-two days-passage. On her way from Callao to Lima she lost her captain, Ernesto Augusto da Sylva Rodovalho.

The Prussian war steamer, Gaselle, had captured the Danish barque, Chén-Chen.

The Spanish frigate Neptune captured a French vessel with 650 negroes on board, bound for Cuba.

The Brazilian brigantine, Dous Amigos, arrived at Rio Janeyro on the 15th ult., three days from Benevento. On the 13th, when twelve miles east of Mariçá, she took on board the captain of the American barque Ocean, who was dangerously ill, and had given up the command of the vessel to the first mate. She was whaleishing.—[*Telegrafo Maritimo.*

MONTEVIDEO.

The [ex] Fairy arrived yesterday with Sunday's papers. Another suicide has taken place: an Italian named Thavasco, living opposite the 'Pais' printing office, blew out his brains with a pistol-shot, and has left a destitute family. On Sunday there was an excursion to visit the Spanish fleet: the Fairy (now Perla del Uruguay) made two trips, taking a number of citizens at 1$ each. Admiral MacMahon's officers received them very politely, and shewed the rifled 68-pounders of the Berenguela and the Blanca which are to uphold the dignity of the Spanish flag in the Pacific.

Next week the new steamer Rio de la Plata will be placed on the route of the Uruguay: she is at present being painted and fitted up for passenger accommodation, after which there will be a grand inaugural banquet and ball. Another steamer, smaller but of the same model, is daily expected in Montevideo, which will ply between Paysandú and Salto when the river is too low to allow the former one to navigate there. The commander of Porongos sends a rigmarole account of the capture of Porongos by the rebels, and his adventures in the woods; but it is not half so interesting or graphic in its details as that recently given by our talented friend Mr. Pilling.

On Saturday a train of military supplies was despatched for Colonel Cames's forces. The ex-Minister Sienra of Canelones has been raised to the rank of Colonel. Letters from Mercedes of the 25th ult. report a hot encounter between the garrison and a body of 200 rebels under Maximo Perez. At first the Government forces drove all before them, but Perez, rallying his men, returned to the charge and mortally wounded the Blanco commander, Rodriguez, who was carried into Mercedes in a dying state and covered with blood. A courier arrived from Paysandú on the 21st with news that Flores had attacked the town on the day previous and been repelled: the Brazilian and English gunboats were inactive spectators of the affray.

The British barque Mary Sparks arrived from the Falkland islands, on Saturday, with a cargo of coal and iron: she had encountered such severe weather that the captain was compelled to throw overboard 108 tons of iron.

The Helvetic Federal Government has forwarded despatches to Sor. Kissling as Swiss consul-general at Montevideo, that nation being formerly unrepresented there: the new consulate is at 73 calle Colon. Papers from Rio by the Rio de La Plata state that the monetary crisis continues.

None of the rebel forces are now within sight of Montevideo, but keep a respectful distance from Saa's encampment. They hold Canelones, which Larrobla garrisons with 30 men It is said that a captain and 20 men of the force of Perez, after their recent retreat submitted to the Government and were pardoned. The son of ex-President Plá is among the prisoners and has been lodged in the fort, heavily ironed.

The Norwegian ship Three Brothers, which was wrecked at the Castillas, near Maldonado, with upwards of six hundred tons of rails, railway chairs, bolts, nutts and screws for the Southern Railway, was sold by public auction in Montevideo on the 26th of September, and purchased by Mr. J. A. Newnham: the ship for 405, and the cargo for 400 Montevidean dollars. It is supposed that the whole cargo will be saved, which was valued in England at 35,000 hard dollars.

GREAT FIRE AT LIMOGES, FRANCE.

The Paris correspondent of the 'Morning Herald' writing on Wednesday evening, says—"The arrival of the King of Spain has been marked by the coincidence of a catastrophe which is likely to throw a gloom over the *fêtes* which have been arranged in his honour. Whilst the Emperor was awaiting his royal guests, the tidings reached him that a fire had broken out in the town of Limoges, and burnt down 150 houses. His Majesty's first impulse was to proceed himself to the scene of the disaster, but that the necessity of fulfilling his duties as a host compelled him to forego that intention; but he despatched a large sum by one of his aides-de-camp for the relief of the sufferers. The Empress and Prince Imperial have each given £400. It appears that the fire broke out on Monday evening whilst the fireworks in honor of the Emperor's *fête* were being let off; but the accounts published do not state whether the conflagration was caused by a stray rocket. The damage is set down at between four and five millions of francs (£160,000 to £200,000). The 'Courrier de Limoges' states that, at nine o'clock, whilst the fire was at its height, the Bishop, followed by his clergy, carried in solemn procession round the burning houses the relics of St Aurelian and Št Martial." A telegram received on Thursday evening says that the number of houses destroyed is 200, and that the cause of the conflagration is unknown.

The Emperor not being able to go to Limoges, on account of the arrival of the King of Spain, has sent his aide-de-camp, Col. O'Reilly, to relieve the greatest sufferers. The Empress and Prince Imperial have each contributed 10,000f.

Patacons sold 226,600

So intimately connected is the price of wool with that of ounces, that sheepfarmers at this period of the year almost pay more attention to the state of patacons than to the state of the home markets.

Within the last week specie has risen considerably, and notwithstanding that it is the interest of the wool buyers (who are a very influential party) that specie should fall at the period of the clip, we are of opinion that patacons will still go up higher, and with them the price of wool. The state of the exchange market, leads experienced men to believe that the old system of drawing on Europe, in anticipation of wool purchases, will be impracticable this year, and it remains to be seen what effect this will have on the wool market.

There are not wanting those who predict that specie will come from Europe this year to pay for our wool crop, owing to the general distrust which is felt here as to the state of things at home; but we, for our part, cannot see how, when the balance of trade is so strongly against us, that we can expect gold should be imported to the River Plate.

Rams.

Remarkably fine rams of three and four crosses of Rambouilliet blood (Cabaña Imperial breed) on sale at the Chacra of Mr. Latham Camino de Casa Teja partido de Quilmes.

For size, weight of fleece and length of staple, this flock is unsurpassed in the province, and it is precisely the class most desirable for the regeneration of the general run of flocks in the country.

The Ewes—dams of the rams offered for sale, averaged at the last clip 9½ lbs. each of prime conditioned wool.

SAVINGS BANK.

BANK MAUÁ AND CO.

No. 103 Calle de Cangallo,
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m. till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood

Buenos Ayres, September 19, 1863.

Pp. Mauá and Co.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p ☰) per annum, which is liquidated ever six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

General Agency and Commission House

WILD & PERKINS,
Rosario de S. Fé, Cordoba St. 87 & 89.

For the purchase and sale of land in this as well as other provinces; property of every description, domestic produce such as cattle, sheep, hides, wool, grains, metals &c; consignments of produce as well as merchandize to the Interior attended to, despatch of vessels, collections and representations in commercial affairs, &c.

The want of a Land and cattle Agency in Rosario to facilitate the sale or lease of landed property, the examination and arrangement of titles, &c. has been very prejudicial to the interests of new-comers, and has prevented many from purchasing in this Province.

The undersigned will give especial attention to this important branch of their business, and their experience in this as well as other countries inspires them with confidence that, in land transactions as well as other commission business with which they may be favored, they will give entire satisfaction,
